<p>Cal. and Fed Endangered Species Act Compliance:</p> <p>Additional paragraph added at top of page 15: "CDFG may not authorize, by permit, the take of endangered species, threatened species, and candidate species if issuance of the permit would jeopardize the continued existence of the species."</p>								
<p>DEIS/R Chapter 7:</p> <p>Any impact associated with implementing alternative components other than the ERP should not be mitigated by the ERP, whether those impacts are temporary or permanent. Example: ERP wetland creation should not be used to mitigate for the temporary loss of wetland habitat as a result of reservoir construction.</p>								
<p>Phase II Interim Report:</p> <p>Throughout this document the statement is made that "water will be purchased from willing sellers to meet the water needs and objectives of the Ecosystem Restoration Plan". In order to assure that water is available, it may be necessary to develop a drought water contingency program that acquires water at any cost to supplement poor flow conditions.</p>
